Business Requirement

- **The management team requires an interactive dashboard to monitor F&B sales performance across multiple outlets and identify key revenue drivers. The solution should provide real-time visibility into revenue trends, guest behavior, outlet performance, and operational KPIs to support data-driven business decisions.**

Dashboard Requirement

- **Monitor overall F&B revenue performance.**
- **Compare year-over-year sales trends.**
- **Track Covers Per Day (CPD) and Average Revenue per Cover (ARC).**
- **Analyze Resident vs Non-Resident guest contribution.**
- **Evaluate Food, Beverage, and Liquor revenue mix.**
- **Identify top-performing outlets.**
- **Measure Budget vs Actual performance.**
- **Support revenue planning through interactive insights.**

KEY INSIGHTS :

Revenue Growth

- Net Revenue witnessed exceptional year-over-year growth, increasing from 26.87 Cr to 60.16 Cr. The significant improvement indicates stronger customer demand and higher overall outlet performance across the F&B business.

Category Performance

- Food continues to be the primary revenue driver, contributing the largest share of total F&B revenue, while Beverage and Liquor together create a balanced revenue mix and additional upselling opportunities.

Outlet Performance

- Aavartana and Peshawri consistently emerged as the top-performing outlets, demonstrating strong guest preference and making a significant contribution to the overall F&B revenue.

Customer Behaviour

- Non-resident guests contributed a larger share of revenue and covers compared to resident guests, indicating that external diners remain the key growth segment for the business.

Shift Analysis

- Dinner generated the highest revenue across all meal periods, followed by Breakfast and Lunch, reinforcing the importance of evening dining in maximizing daily revenue.

Operational KPI

- CPD and ARC showed steady improvement alongside higher guest volumes, indicating that revenue growth was driven not only by increased footfall but also by maintaining healthy average guest spending.

Budget Performance

- Actual performance remained closely aligned with planned budgets across major outlets, reflecting effective revenue planning and operational execution throughout the financial year.
